Liquid Nitrogen Containers

-196°C Intelligent LN₂ Biological Sample Storage System

Controlled Rate Freezer Analysis Instruments

Service and Maintenance

Haier Biomedical offer a variety of service products to customers, via our dedicated UK based service support team and trained engineers

Service Contracts

Haier Biomedical provides maintenance and breakdown services for a wide variety of laboratory equipment, covering most makes and models. We offer three levels of contract tailored to suit your individual needs.

Products Covered

- Cryogenic Freezers (-150°C)
- ULT Freezers (-80°C)
- Freezers (-20°C to -40°C)
- Refrigerators (+2°C to +8°C)
- Blood Refrigerators
- Plasma Freezers
- Liquid Nitrogen Storage (-196°C)
- Cold Rooms
- Freezer Rooms
- CO₂ and Multi-gas Incubators
- Standard Incubators
- Climate Chambers
- Class II Safety Cabinets
- Laminar Flow Cabinets
- Fume Hoods
- Autoclaves
- Sterilisers
- Temperature Monitoring

Temperature Mapping, Calibration and IQ/OQ

UKAS traceable calibration services and custom cold storage temperature mapping protocols for healthcare, biotechnology, pharmaceutical and industrial applications are offered by via Haier Biomedical's trusted and accredited partners. Plus validation (IQ/OQ) services to a arrange of temperature-controlled equipment to satisfy regulatory requirements..

Innovative Lab Solutions , Built for Life

Haier Biomedical UK is a trusted, life-long partner committed to delivering value-driven solutions with integrity, and ongoing support and care at every stage.
